Sweet on You

Creating your Gift Tag

The gift tags for Chocolate Bown's Corporate gifts are standard business card size - **90mm x 55mm**. They are printed on one side of 300gsm artboard and drilled in the top left corner in order to be attached to your gifts.

Artwork needs to be supplied as a high resolution 300dpi PDF file with bleed (**4mm bleed** if required) and crop marks. An example of the base template for your artwork is on the right.

Below is an example of how your artwork PDF could look for supply to print - note the bleed and crops for this background image example.

Example of finished, trimmed card.

Note: If you would like us to put together your gift tag please supply a high resolution file of your logo and your greeting (no more than 70 characters long) and we will send a proof to you for approval before printing.

We can use the above chocolate background on your card if you wish and will use the 'Sweet on You' font for your message.
